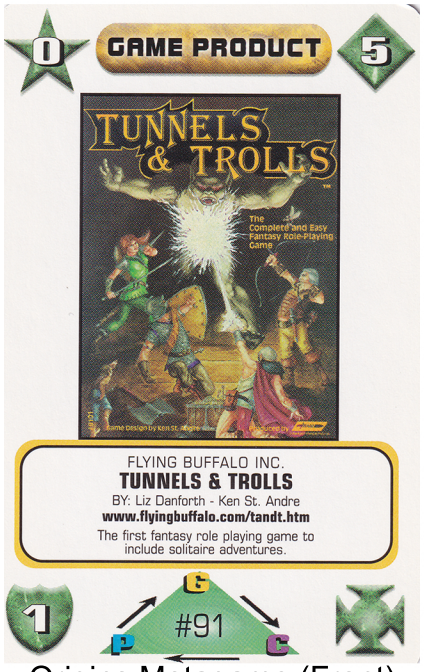
Origins Meta Game Back



Origins Metagame (Front)

Flying Buffalo used lots of cardvertisements in the Nuclear War Card Game series of releases. Plus there were also miscellaneous Joker cards, Rules cards, Chart cards, Referance cards, Blank cards, and Checklist cards. These are the only cards I have. I am currently missing the Checklist cards for the First editions of Nuclear Escalation and Nuclear Proliferation.

In my Nuclear Escalation second edition box, I also received a deck of 52 playing cards from Origins. They are not part of the normal release and i have not include them in this reference.
